

About Eagles Properties

Eagles Management was founded in 1982, by a small group of investors, with the intent of providing clean and affordable apartment homes to families.

Now, 20+ years later, we continue to manage 2 communities in Huntsville. The key to our success has been that we provide a great place to live. That same small group of investors continue to work hard to maintain the company's values. We pride ourselves on having a professional and caring management staff on-site to assist our residents. Maintenance is a top priority; we train and equip our maintenance staff to resolve any issues promptly and professionally.

Eagles Management continues to offer families clean, affordable, quiet and well maintained apartment communities. After all, "We're the ones to come home to."
